Executive Training Programs" bzw. • Management Development Programs" zu studieren, welche von den Business-Schools der amerikanischen Universitäten durchgeführt werden. An diesen Programmen nehmen praktisch tätige Führungskräfte der Wirtschaft, der öffentlichen Verwaltung und des Militärs teil, die sich durch den Besuch einer derartigen Veranstaltung weiterbilden möchten. Dabei geht es vor allem darum, diesen Führungskräften die Möglichkeit zu geben, vergessenes Wissen aufzufrischen, sie mit dem inzwischen ein getretenen wissenschaftlichen Fortschritt im Bereich des Management und des Business Administration vertraut zu machen, sie für eine gewisse Zeit aus dem für sie oft gleichförmig gewordenen Rhythmus des betrieblichen Alltags herauszureißen, dadurch eine im Laufe der Zeit evtl. eingetretene Betriebsblindheit zu beseitigen und den Blick für den Betrieb als Ganzes zu öffnen. Auf diese Weise soll das Wissen der Teilnehmer gefördert und ihr Denken geschult werden, damit sie die wirklich entscheidenden Probleme, welchen sich ihre Unternehmen unter den in der Zukunft zu erwartenden wirtschaftlichen, politischen und gesellschaftlichen Bedingungen gegenübersehen werden, besser zu erkennen und besser zu lösen in der Lage sein werden. Das Ziel der Reise war zwar unmittelbar auf das Studium der Executive Training Programs ausgerichtet. Scientific Essay from the year 2012 in the subject Business economics - Business Management, Corporate Governance, University of Economics, Prague, language: English, abstract: Executive Development Programs - Requirements and Success Factors The topic of this article is executive development programmes at business schools and other executive education institutes, which in principle are open to all executives and offer no academic qualifications (open, non-degree programmes). As it aims to analyse external training for senior executives, the target group of the paper is executives in senior positions. Ruskin University (Ashcroft International Business School), language: English, abstract: Formal approaches to management development are inappropriate, say some advocates. This work provides a description and evaluation of formal and informal management development methods and their roles within management development programmes. In order to verify whether formal development is inappropriate this work supplies recommendations considering management development programmes with reference to critical success factors. Diplomarbeit aus dem Jahr 2001 im Fachbereich BWL - Unternehmensführung, Management, Organisation, Note: 1, Frankfurt University of Applied Sciences, ehem. Fachhochschule Frankfurt am Main, Sprache: Deutsch, Abstract: Erfolgreiches Management setzt in einem von stetigem Wandel geprägten Umfeld heutzutage die Entwicklung einer konsistenten, zukunftsgerichteten Unternehmensstrategie und deren treffende Umsetzung voraus. Stellt der erste Schritt für viele Unternehmen noch eine vergleichsweise einfach zu lösende Aufgabe dar, so gestaltet sich die Übertragung einer einmal formulierten Strategie in die Praxis weitaus schwieriger. Dieser Effekt wird in vielen Unternehmen zusätzlich dadurch verstärkt, dass zur Unternehmenssteuerung eingesetzte Instrumente die geänderte Ausgangslage (noch) nicht ausreichend stark berücksichtigen. Vielmehr werden Unternehmen sehr häufig lediglich unter isolierten Bedingungen (finanzieller Natur) betrachtet. Um die aufgedeckte Lücke zwischen Strategieformulierung und -umsetzung schließen und damit auch in Zukunft wettbewerbsfähig sein zu können, muss dem Wandel der heutigen Zeit über eine erweiterte Sicht auf das Unternehmen sowie über die Anpassung bestehender Prozesse Rechnung getragen werden. Diese Arbeit stellt ein Instrument vor, das inhaltlich in der Lage ist, diese Vorgänge in Unternehmen zu generieren: die Balanced Scorecard (BSC). Recognizing a significant need to continually update the current body of knowledge on management development with the latest

innovations in high quality research and practice in various parts of the globe, this book provides the most comprehensive and up-to-date work on the state of research and practice in management development. Hill and Stewart provide examples of both management development research and practice to inform and stimulate future research and to encourage the use of research-based practice in organizations. In particular, the book: Explores and assesses the various and varying meanings attached to the term 'management development' and its use Provides a range of examples of research and practice to inform and support the teaching of management development as a subject Provides a resource to HR practitioners and line managers to develop research-based and critically analyzed management development interventions. Drawing on the expertise of a wide array of contributors, the term 'management development' is explored and critically analyzed both conceptually and practically. This impressive volume is essential reading for students and academics across a range of subdisciplines including human resources development, human resources management and leadership. Every educator knows that the most effective way to learn is by 'doing' - and nowhere is that truth more clearly seen than in management development. This wide-ranging book explains what is involved in planning and running project-based management development programmes and demonstrates the benefits for both the individuals and the organizations concerned. Drawing on the unrivalled experience of PA-Sundridge Park Management Centre in this field, the authors: • show how to set up the necessary frameworks • describe programmes for different levels of management, including 'top teams' • examine the role of the sponsor • point out the potential pitfalls and indicate how to avoid them • look at the influence of national culture. With summaries and checklists, and case studies focusing on ICI, Allied Domecq, Volvo, Gestetner, Lloyds Bank Insurance Services, The Inland Revenue, London Underground and others, the emphasis

throughout is very much on the practical. For anyone concerned with improving managerial performance, this is a book that will repay careful study. The publication contains a balanced mix of theoretical concepts and practical guidance about management training and development approaches, based on best practice used by companies, public sector organisations, training institutions, business schools and management consultants in various countries around the world. Topics discussed include: competence modelling and management practices, learning theory, methods and techniques, effective management development and education, and aspects of the management development cycle such as problem identification, training needs assessment, training programme design, implementation and monitoring.
