Beyond Exemplar Tales Dec 04 2022 "Clear, coherent, richly documented, and highly persuasive. I

know of no other source devoted exclusively to the topic of Chinese women ' s biographies, and I am confident that this book will have a ready audience in the China field and beyond. ” -Paul Ropp, Clark University “ In addition to Liu Xiang ' s *Lien ü zhuan*, the Urtext of Chinese women ' s biography, this rich trove of essays explores previously unexamined biographical genres and mines literary texts for their biographical potential. It will be of great value to scholars interested in women ' s history, life-writing, and biography, both in the China field and in comparative contexts. ” -Grace S. Fong, McGill University

Teaching the Holocaust in School History Sep 01 2022 If we expose students to a study of human suffering we have a responsibility to guide them through it. But is this the role of school history? This issue is the rationale behind teaching the Holocaust primarily historical, moral or social? Is the Holocaust to be taught as a historical event, with a view to developing students' critical historical skills, or as a tool to combat continuing prejudice and discrimination? These profound questions lie at the heart of Lucy Russell's fascinating analysis of teaching the Holocaust in school history. She considers how the topic of the Holocaust is currently being taught in schools in the UK and overseas. Drawing on interviews with educationalists, academics and teachers, she discovers that there is in fact a surprising lack of consensus regarding the purpose of, and approaches to, teaching the Holocaust in history. Indeed the majority view is distinctly non-historical; there is a tendency to teach the Holocaust from a social and moral perspective and not as history. This book attempts to explain and debate this phenomenon.

Chopin at the Boundaries Apr 15 2021 The complex cultural status of Chopin--he was a native Pole and adopted Frenchman, a male composer writing in "feminine" genres--is the subject of Kallberg's absorbing book. Combining social history, literary theory, musicology, and feminist thought, this book situates Chopin's music within the construct of his somewhat marginal sexual identity.

Arthurian and Other Studies Jun 05 2020 Essays on Arthurian themes, on Beowulf, Chaucer and Shakespeare, and textual studies of Gower and others. These essays for Shunichi Noguchi, by scholars from Britain, the USA and Japan, reflect his approach to English studies and his wide range of interests from Beowulf to Ulysses. The principal focus, however, is on medieval and renaissance studies: nine of the essays are on Arthurian themes, to which Professor Noguchi has devoted his academic life. There are also essays on Beowulf, Chaucer, the York miracle plays, and Shakespeare, as well as textual studies of Gower, Wulfstan, Wycliffe and Caxton. Contributors: SHUICHI AITA, SHINSUKE ANDO, DEREK BREWER, ANTONY DICKINSON, P.J.C. FIELD, KAZUO FUKUDA, EIICHI HAYAKAWA, TADAHIRO IKEGAMI, MIKIKO ISHII, SOUJIWASAKI, GREGORY K. Bioinformatics Research and Applications Nov 03 2022 This book constitutes the proceedings of the 14th International Conference on Bioinformatics Research and Applications, ISBRA 2018, held in Beijing, China, in June 2018. The 24 full and 10 short papers presented in this volume were carefully reviewed and selected from a total of 138 submissions. They were organized in topical sections named: network analysis and modelling; genomic data analysis; cancer data analysis; structure and interaction; HPC and CryoEM; machine and deep learning; data analysis and methodology; analysis and visualization tools; and RNA-Seq data analysis.

Intelligent Autonomous Systems 12 Apr 27 2022 Intelligent autonomous systems are emerged as a key enabler for the creation of a new paradigm of services to humankind, as seen by the recent advancement of autonomous cars licensed for driving in our streets, of unmanned aerial and underwater vehicles carrying out hazardous tasks on-site, and of space robots engaged in scientific as well as operational missions, to list only a few. This book aims at serving the researchers and practitioners in related fields with a timely dissemination of the recent progress on intelligent autonomous systems, based on a collection of papers presented at the 12th International Conference on Intelligent Autonomous Systems, held in Jeju, Korea, June 26-29, 2012. With the theme of “ Intelligence and Autonomy for the Service to Humankind, the conference has covered such diverse areas as autonomous ground, aerial, and underwater vehicles, intelligent transportation systems, personal / domestic service robots, professional service robots for surgery / rehabilitation, rescue / security and space applications, and intelligent autonomous systems for manufacturing and healthcare. This volume 1 includes contributions devoted to Autonomous Ground Vehicles and Mobile Manipulators, as well as Unmanned Aerial and Underwater Vehicles and Bio-inspired Robotics.

Hearings Aug 08 2020

Behavior Analysis Around the World Jan 05 2023 Behaviour analysis has traditionally been one of the main areas and main approaches to psychology. It is based on laboratory research and in conceptualizations from distinguished figures of the discipline, such as Skinner, Pavlov, Mach, and even

Watson and Thorndike. It has generated a science (the experimental analysis of behaviour), a philosophy (behaviourism), and numerous practical applications (applied behaviour analysis). For several decades it was even considered to be the dominant paradigm in psychology. This special issue contains scientific articles in the main areas of behaviour analysis, both as a laboratory science and as an applied discipline. It covers representative research and applications of behaviour analysis at the beginning of the 21st century. The authors come from countries including the United States, China, Mexico, Spain, Belgium, France, Switzerland, Belgium, Colombia, Poland, Greece. This special issue is an indication of the international relevance of this area of psychology, and its current state.

Cognitive Psychology Applied May 29 2022 To present a timely analysis applying the rich resources of the current cognitive revolution, the contributors to this volume emphasize symbiotic interactions between theoretical/laboratory and applied/real-life approaches. A direct result of a symposium on general experimental psychology held during the International Congress of Applied Psychology (ICAP) in Kyoto, this volume includes papers focusing on topics in cognitive psychology that can be applied to school, business/industry, and daily life. The 20 contributors to ICAP represent not only a uniformly high level of excellence, but also a unique collection of talent from five nations: Canada, England, France, Japan, and the United States. This combined intelligence offers critical analyses of cognitive approaches to enhancing work efficiency, educating the labor force, coping with anxiety, improving mental hygiene, understanding the aging population, and exploring aesthetics in music.

NCERT Exemplar Problems-Solutions MATHEMATICS class 9th Feb 06 2023 University Grants Commission National Eligibility Test (UGC NET) is a national level test which is held twice in a year by Central Board of Secondary Education (CBSE) on behalf of UGC. This test is for Junior Research fellowship (JRF) and Assistant Professor or for both in Indian Colleges & Universities. UGC NET Examination consists of 2 papers: Paper -1 is compulsory for all students and Paper -2 is related to candidates' Post Graduation Subject. NTA UGC NET/ JRF/ SET- ECONOMICS paper 2 book is designed according to the latest pattern and syllabus of the UGC NET applicable from June 2019 Examination. It covers all the aspects and concepts of Economics in detail that are mention in the book, completely covers whole syllabus in chapter wise manner which are divided into 10 units with more than 4000 multiple choice questions for thorough practice, also includes previous years' questions, 3 model papers as per the examination pattern and 3 Solved Papers: Solved Paper 2019 (June), Solved Paper 2018 (December) and Solved Paper 2018 (July),. All these features will make it a ladder of success in the preparation and will open great future possibilities for the aspirants. S TABLE OF CONTENTS Solved Paper 2019 (June), Solved Paper 2018 (December), Solved Paper 2018 (July), Unit I: Micro Economics, Unit II: Macro Economics, Unit III: Statistics and Econometrics, Unit IV: Mathematical Economics, Unit V: International Economics, Unit VI: Public Economics, Unit VII: Money and Banking, Unit VIII: Growth and Development Economics, Unit IX: Environmental Economics and Demography, Unit X: Indian Economy, Model Papers (1-3).

The Correspondence of John Wallis (1616-1703) May 09 2023 This is the second volume of a six

volume compendium on the correspondences of John Wallis (1616-1703). Wallis was Savilian Professor of Geometry at Oxford from 1649 until his death, and was a founding member of the Royal Society and a central figure in the scientific and intellectual history of England. Along with his role as decipherer on the Parliamentary side during the Civil War, he prepared the ground for the discovery of infinitesimal calculus by Newton and Leibniz and played a decisive role in modernization of English mathematics. This volume provides fascinating insight into the life of Wallis through his correspondences with intellectual and political figures of the latter part of the 17th century.

Pattern Recognition and Machine Intelligence Mar 27 2022 This book constitutes the proceedings of the 6th International Conference on Pattern Recognition and Machine Intelligence, PReMI 2015, held in Warsaw, Poland, in June/July 2015. The total of 53 full papers and 1 short paper presented in this volume were carefully reviewed and selected from 90 submissions. They were organized in topical sections named: foundations of machine learning; image processing; image retrieval; image tracking; pattern recognition; data mining techniques for large scale data; fuzzy computing; rough sets; bioinformatics; and applications of artificial intelligence.

Multimedia Content Analysis and Mining Nov 22 2021 Prominent international experts came together to present and debate the latest findings in the field at the 2007 International Workshop on Multimedia Content Analysis and Mining. This volume includes forty-six papers from the workshop as well as thirteen invited papers. The papers cover a wide range of cutting-edge issues, including all aspects of multimedia in the fields of entertainment, commerce, science, medicine, and public safety.

Exemplarist Moral Theory Aug 20 2021 In Exemplarist Moral Theory of Linda Zagzebski presents an original moral theory based on direct reference to exemplars of goodness, whom we identify through the emotion of admiration. Using examples of heroes, saints, and sages, she shows how narratives of exemplars and empirical work on the most admirable persons can be incorporated into the theory to serve both theoretical and practical purposes.

Incunabula in Transit Mar 15 2021 In Incunabula in Transit Lotte Hellinga explores trade in early printed books in the fifteenth and eighteenth centuries. Material evidence (typography, illumination, binding) and historical context deepen understanding of the evolving book trade. Eighteenth-century collectors changed early patterns of ownership.

Pilgrimage to Broken Mountain Oct 22 2021 An ethnographic study based on decades of field research, Pilgrimage to Broken Mountain explores five sacred journeys to the peaks of venerated mountains undertaken by Nahua people living in northern Veracruz, Mexico. Punctuated with elaborate ritual offerings dedicated to the forces responsible for rain, seeds, crop fertility, and the well-being of all people, these pilgrimages are the highest and most elaborate form of Nahua devotion and reveal a sophisticated religious philosophy that places human beings in intimate contact with what Westerners call the forces of nature. Alan and Pamela Sandstrom document them for the younger Nahua generation, who live in a world where many are lured away from their communities by wage labor in urban Mexico and the United States. Pilgrimage to Broken Mountain contains richly detailed descriptions and analyses of ritual procedures as well as translations from the Nahuatl of core myths, chants performed before decorated altars, and statements from participants. Particular emphasis is placed on analyzing the role of sacred paper figures that are produced by the thousands for each pilgrimage. The work contains drawings of these cuttings of spirit entities along with hundreds of color photographs illustrating how they are used throughout the pilgrimages. The analysis reveals the monist philosophy that underlies Nahua religious practice in which altars, dancing, chanting, and the paper figures themselves provide direct access to the sacred. In the context of their pilgrimage traditions, the ritual practices of Nahua religion show one way that people interact effectively with the forces

responsible for not only their own prosperity but also the very survival of humanity. A magnum opus with respect to Nahua religion and religious practice, Pilgrimage to Broken Mountain is a significant contribution to several fields, including but not limited to Indigenous literatures of Mesoamerica, Nahuatl studies, Latinx and Chicanx studies, and religious studies.
