Establish the strong foundation in the accounting fundamentals needed to succeed with Warren/Jones/Taylor's FINANCIAL AND MANAGERIAL ACCOUNTING, 15E. Memorable business examples throughout this leading book provide a meaningful context as they demonstrate how content from each chapter fits into the big accounting picture. The authors clearly connect fundamental accounting concepts to challenges and triumphs in real businesses today. For instance, each chapter begins with a real-world company opener that is linked to applicable content throughout the chapter. In addition, new Certified Management Accountant (CMA) exam questions prepare readers for professional success, while Pathways Challenges help hone critical-thinking skills. Trust FINANCIAL AND MANAGERIAL ACCOUNTING to master the accounting concepts most important in business today. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. The book contains a collection of papers dealing with a range of controversial accounting issues which exercised the minds of local authority officials during the period 1909-1934 and the "solutions" embodied in the Accounts (Boroughs and Metropolitan Boroughs) Regulations 1930. The contributors to the debate were mainly local government officials and the items reproduced cover a wide range of matters such as the content of the abstract accounts; the need for standardization and an illuminating comparison of the nature and contents of municipal accounts with those of limited companies. A number of issues which received close attention from the literature during the early part of the present century were related to the growth of municipal trading undertakings (water, gas, tramways and electricity). The pricing of these services was a matter of considerable debate; questions included whether these services should be priced to generate a profit, break-even or receive a subsidy from the rates. The depreciation question and the related issues of loan periods and the need for a sinking fund receive some attention as do the growing concern of municipal debt.

Establish a strong foundation in accounting fundamentals that will help you succeed in your career and business with Warren/Jones/Taylor's FINANCIAL AND MANAGERIAL ACCOUNTING, 16E. The latest business illustrations and current examples provide a meaningful context that demonstrates how each chapter's content fits into the big picture. The authors clearly connect fundamental accounting concepts to real businesses today. Each chapter begins with a real company opener that is referenced throughout the chapter. New examples and cases in each chapter highlight how to use and apply data analytics. These cases use data sets related to the chapter content while showing you how to analyze and develop reports using Excel and Tableau. In addition, updated Certified Management Accountant (CMA) exam questions prepare you for professional success. Pathways Challenges also help you hone critical-thinking skills and reinforce understanding of key concepts. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Revised and updated, Granof's Third Edition incorporates the latest GASB pronouncements and takes a fresh look at the unique features of governmental and not-for-profit accounting. This text will help you develop a firm grasp of the theory underlying current practice, so you can quickly acquire the skills required of professional accountants and auditors. Throughout, the emphasis is on the significance of reported information and how to interpret and analyze accounting information. Covering the essentials of fund accounting, this flexible book introduces the reader to the basic accounting principles at work in both governmental and not-for-profit organizations. This brief book divides most of the chapters into independent sections, which may be covered as separate units. Now includes a print update on GASB 34, packaged with the volume. Topics addressed include government and not-for-profit environments and characteristics, the use of funds in governmental accounting, the budgetary process, special revenue funds, debt service funds and capital projects funds, proprietary and fiduciary funds, general reporting principles, government-wide financial statements, fundamentals of accounting and reporting and analysis of financial statements and financial condition. For Accountants and Auditors studying for professional certification. The #1 CPA exam review self-study leader The CPA exam review self-study program more CPA candidates turn to take the test and pass it, Wiley CPA Exam Review 39th Edition contains more than 4,200 multiple-choice questions and includes complete information on the Task Based Simulations. Published annually, this comprehensive two-volume paperback set provides all the information candidates need to master in order to pass the new Uniform CPA Examination format. Features multiple-choice questions, new AICPA Task Based Simulations, and written communication questions, all based on the new CBT-e format Covers all requirements and divides the exam into 47 self-contained modules for flexible study Offers nearly three times as many examples as

other CPA exam study guides With timely and up-to-the-minute coverage, Wiley CPA Exam Review 39th Edition covers all requirements for the CPA Exam, giving the candidate maximum flexibility in planning their course of study—and success. In recent years there have been a number of significant reforms in local government accounting practices around the world. While the specific reasons for these changes vary, a common factor is the increasing need for governments to measure the efficacy and efficiency of their performance. Nowhere is this trend more apparent than at the local government level. This book aims to give a comparative international perspective on local government accounting innovations, and offers specific cases involving different economic, political and cultural conditions. Countries receiving extended treatment include Belgium, China, Italy, Japan, Malaysia, The Netherlands, New Zealand, Russia, Spain, the United Kingdom and the United States. Together, the essays offer a state-of-the-art take on these issues and identify key issues for future research. How can researchers reliably infer individual-level behavior from aggregate (ecological) data? Harvard's Gary King lays out a unique and reliable solution to this venerable problem. Using an example situation, King unifies a set of diverse findings and arrives at a solution that includes over 16,000 comparisons. King's technique will enable empirical researchers to investigate substantive questions that have heretofore proved unanswerable. Copley's *Essentials of Accounting for Governmental and Not-for-Profit Organizations*, 10/e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. There is more comprehensive coverage of accounting for governmental and not-for-profit organizations than what is available in an advanced text but concise enough to be used effectively in a semester, quarter, or even a half term course focusing on just these areas. For more than 60 years, *Accounting for Governmental & Nonprofit Entities* has been the leader in the market. It is a comprehensive governmental and not-for-profit accounting text written for students who will be auditing and working in public and not-for-profit sector entities. Originally published in 1951 and written by Professor R. M. Mikesell, this book—and the many subsequent editions revised by Professors Leon Hay, Earl Wilson, Susan Kattelus, Jacqueline Reck, and Suzanne Lowensohn—have given generations of instructors and students a comprehensive knowledge of the specialized accounting and financial reporting practices of governmental and not-for-profit organizations, as well as an understanding of how those organizations can better meet the information needs of a diverse set of financial statement users and decision makers. The vision of these original authors continues to be reflected in this 17th edition, and their strategy of providing a large and innovative set of instructional support materials prepared and tested in the classroom by the authors continues to be a guiding principle today. The current author team brings to this edition their extensive experience teaching government and not-for-profit courses as well as insights gained from their professional experience, scholarly writing, and professional activities. The result is a relevant and accurate text that includes the most effective instructional tools. Contains all current AICPA content requirements in regulation Unique modular format-helps you zero in on areas that need work, organize your study program, and concentrate your efforts Comprehensive questions-over 3,800 multiple-choice questions and their solutions in the four volumes. Unlike other government and not-for-profit (NFP) books, this one is directed at potential users rather than preparers of financial reports. It demonstrates the significance of reported information and shows users (managers, investors, taxpayers, legislators, trustees) how to interpret and analyze accounting information. As the leading choice in college accounting, Heintz & Parry's *COLLEGE ACCOUNTING*, 21E, International Edition combines a proven, step-by-step approach and excellent examples with a tightly integrated online homework tool that makes accounting understandable to

every student, regardless of their accounting background or business experience. The Heintz & Parry program, well-known for its clarity, accuracy, and technology, focuses on the practical skills students need to transition from the classroom to the workplace. COLLEGE ACCOUNTING, 21E, International Edition is fully integrated with CengageNOW, a powerful course management and online homework tool that provides robust instructor control and customization to optimize the student learning experience and meet desired outcomes. The expanded CengageNOW for COLLEGE ACCOUNTING, 21E, International Edition includes all end-of-chapter problems, Test Bank, Personalized Study plan, and eBook all in one resource. In addition, CengageNOW has been enhanced with smart entry, enhanced feedback, animated eConcepts and demonstration problems, and the inclusion of the Cengage Learning General Ledger Software. With even more practice opportunities and independent study resources than ever before, the 21E delivers the tools students need to succeed. Building on the success of Government and Not-For-Profit Accounting, 2/e, Michael Granof and Penelope Wardlow's new text, CORE CONCEPTS OF GOVERNMENT AND NOT-FOR-PROFIT ACCOUNTING presents a concise, accessible, user-oriented look at the unique features of governmental and not-for-profit accounting. The text helps students understand the "why" of accounting requirements and how financial statements may be interpreted and used by a variety of interested parties, such as future managers, bond analysts, and members of legislatures and governing boards. Be prepared for change by ensuring that you are current in accounting and auditing developments affecting government. With this complete, practical package students gain valuable insight into how accounting success in the classroom today translates into ongoing skills in the future. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The book contains a collection of papers dealing with a range of controversial accounting issues which exercised the minds of local authority officials during the period 1909-1934 and the "solutions" embodied in the Accounts (Boroughs and Metropolitan Boroughs) Regulations 1930. The contributors to the debate were mainly local government officials and the items reproduced cover a wide range of matters such as the content of the abstract accounts; the need for standardization and an illuminating comparison of the nature and contents of municipal accounts with those of limited companies. A number of issues which received close attention from the literature during the early part of the present century were related to the growth of municipal trading undertakings (water, gas, tramways and electricity). The pricing of these services was a matter of considerable debate; questions included whether these services should be priced to generate a profit, break-even or receive a subsidy from the rates. The depreciation question and the related issues of loan periods and the need for a sinking fund receive some attention as do the growing concern of municipal debt. This title provides the tools necessary to go beyond the theory and create value-added services for accountants' clients. In the not-for-profit arena. This book allows readers to examine, evaluate, and perform case studies, which will enhance their working knowledge of fundamental not-for-profit accounting and reporting, presentation requirements, note disclosures unique to not-for-profits, and options allowed under generally accepted accounting principles. Key topics include: Financial statement presentation, including FASB's financial reporting standard Statement of activities Statement of financial position and statement of cash flow Note disclosures Contribution concepts Functional expense and allocation of costs Endowments Operating versus non-operating Split interest agreements and beneficial trusts Agency transactions Programmatic investments Common financial statement mistakes This book addresses a specific subset of nonprofits that are chartered with a single mission: decrease the burden of government. Designing and engaging nonprofits to lessen the burden of government requires a specific description and acknowledgement of the burden to be lessened, and these may include the provision of infrastructure, the relief of debt, or the provision of general public services that are not motivated by charity. It also requires the assignment of specific operating powers to the nonprofit including the power of eminent domain. This book explores these and other related topics including the avoidance of resource dependence on government when attempting to reduce its burden. The book is addressed to the policy makers and rule makers who design policies that affect the ability of the nonprofit to effectively lessen the burden of government. It is also addressed to public administrators in search of innovative ways of implementing these policies consistent with the laws, and to the creative nonprofit managers who are charged

with carrying out the mission often in collaboration with the government or other entities. To the advanced student in all related fields, the author offers not only material for discussion, but enables discovery of what is possible by giving key examples of organizations meeting the terms and objective of lessening a significant burden of government. Learn the latest accounting and auditing developments affecting not-for-profits so that accountants, auditors, and financial managers can prepare financial statements with confidence. This work covers new FASB requirements and information on the latest OMB and Yellow Book developments. It features major program determination and case studies related to revenue recognition and auditing documentation and covers hot topics including: NFP financial statements Risk assessment Documentation Leases Yellow Book Major program determination Key changes GASB updates including GASB Statement No. 91, Conduit Debt Obligations AICPA activities including changes to the auditor's report FASB updates including revenue recognition, grants and contracts, updating the definition of collections, and implementation issue surrounding the financial reporting standard Federal government activities including updates to the Compliance Supplement and proposed changes to the Uniform Guidance
