Ford Focus WRC Jan 21 2020 When world rallying introduced a new formula for "World Rally Cars", Ford seized the opportunity. Malcolm Wilson's M-Sport organization was contracted to do the job, completed the design in less than a year, and spent the next 12 years campaigning this turbocharged, four-wheel-drive car all round the world. Working from state-of-the-art facilities, M-Sport built 97 Focus WRCS, all of which proved to be worthy of World level action when they won 44 World Championship events. Stellar drivers like Colin McRae, Carlos Sainz, Markko Märtin, Marcus Grönholm and Mikko Hirvonen all added to the mystique of an ultra-professional organization, along with substantial support and sponsorship from the likes of Martini, BP, and the state of Abu Dhabi. By building its in-house technical expertise, M-Sport not only engineered and developed the entire car on behalf of Ford, but gradually took over development of the 300bhp, 2.0-litre, turbocharged engine, and led the design of the complex four-wheel-drive transmissions provided by Xtrac. M-Sport's reputation exploded to the point that when regulations changed, the company immediately produced a new-generation Fiesta WRC, and kept the winning days rolling.

Ford Focus RS: How Well Do You Know about Ford Focus RS? Mar 03 2021 This book is about a vehicle that has gracefully taken everything from debilitating criticism to huge hugs of love and produced from 2016 to 2018. It is the Ford Focus RS that sadly bowed out of production, "as a result of pan-European emissions standards, increased CO2 taxation and the high cost of developing an RS", according to the company statement. The Ford Focus Rally Sport(RS) had lived its life rather extravagantly with a sense of pride for all the pampering and attention it was given. After all, the model was born from a lineage of international rally champions through the Ford Escort. The Ford Focus RS badge first appeared on the MK1 Escort. Several versions of rally-ready and road-ready versions came and went. One of the most notable among them was the Escort RS Cosworth. This was a front-wheel drive motivated by a 2.0-liter 16-valve engine that pushed out 212 hp. The top speed was capped at 144 mph and the only available color was Imperial blue. For more knowledge about the car check out Ford Focus RS book today!

Ford Focus RS/ST 1st Generation Apr 04 2021 Ford's Focus Mk1 was a game-changing family hatchback, setting new standards for ride, handling and driver enjoyment. The sporty ST170 was noted for being a top-notch all-rounder, while the rapid RS broke the mould for front-wheel-drive hot hatchbacks, offering outstanding ability on road or track. Today, the ST170 and Mk1 RS are highly-regarded driver's machines, while gradually gaining cult status - and increasing value - among classic collectors. But both machines suffer the potential for rust, neglect, abuse and accident damage - which makes buying one a task that's fraught with risk. To help the would-be RS or ST driver, this quick-reference guide acts as a handy pocket-sized companion during the purchasing process. It aims to help buyers select the best car, pay the right price and avoid any pitfalls. Written by a motoring journalist, long-term fast Ford enthusiast and Focus ST owner, this one-stop package of great advice includes at-a-glance tips, illustrated in-depth inspection guidance, specifications, real-world cost considerations and even notes on which modifications to avoid.
