**essential nursing pharmacology. Exercises include study questions, case studies, and NCLEX® Examination-style review questions. This new edition also features alternate item format questions including multiple response, fill-in-the-blank calculations, and ordered response questions. It's an essential tool in helping you apply your knowledge of pharmacology to clinical practice, develop pharmacology-related clinical reasoning skills, and master safe drug administration. NCLEX® review questions include an alternate item format NCLEX®-style question in each chapter along with a number of application-level questions throughout the workbook. Drug calculations chapter follows the outline of the main-text chapter to help you test your knowledge and skill in drug dosage calculation. Sample drug labels have been updated to reflect the latest drug labels from the main 10th edition text. Detailed case studies enhance your understanding of nursing responsibilities in therapeutic pharmacology. Answers for all exercises are provided at the back of the book to facilitate self-study. Rationales are also included for all application-level questions and case study questions. Focus on safety includes a special icon that calls attention to questions related to safe patient care. NEW! Updated content incorporates updated drug labels, removal of discontinued drugs, updated case studies, and updated study questions to reflect all the updates that have been made to the 10th edition of the main textbook. Study Guide for Essentials of Nursing Research, 8e augments the text and provides students with exercises for each text chapter that furthers their understanding and application of the text content. Critiquing opportunities abound in the Study Guide which includes eight full-length studies in their entirety representing a range of research types. Application Exercises are based on these studies and guide students in reading, understanding, and critiquing the studies. In addition, there are activities to support the learning of fundamental research terms and principles including fill in the blanks, matching exercises, and Study questions.
