A funny memoir of falling in love, getting married, and moving aboard a boat. A young woman meets an amazing guy, falls in love, and they move in together. Straightforward enough, right? Except he lives on a boat—a 38-foot trawler, docked in Chicago. Their relationship is intensified by living in a tiny space, and by the never-ending quirks of the boat, who becomes a third party in the marriage. There are electrical failures, pump failures, big waves, and freezing winters . . . not to mention the attack goose. Felicia Schneiderhan has a fine literary sensibility and manages to be both funny and deeply serious in writing about boats and love and relationships. This book will delight any boater, or any land-dweller dreaming of escape. "Newlyweds Afloat is a love story between a woman, a man, and his boat. Felicia Schneiderhan recounts with humor and skill the story of her transformation from a Chicago apartment dweller to a newly married river rat on Chicago's waterways. With an eye for the absurd, she reveals the ups and downs, joys and challenges, and day-to-day logistics of living aboard a 38-foot trawler named Mazurka—even in winter. Newlyweds Afloat is full of high-seas drama and flat water reflection plus cats and lots and lots of heart. I could not stop reading it." —Julie Buckles, author of Paddling to Winter "Newlyweds Afloat is a wife's story of learning to be the other woman, with a man who loves his boat. This detailed account takes an honest look at many of the difficulties of life aboard a trawler, and learning to love his boat as much as he does." —Ed Robinson, author of Leap of Faith: Quit Your Job and Live on a Boat Forays into the Fantastic: Sci-Fi and Fantasy, Slipstream and Magical Realism. This groundbreaking book can help men grasp and apply essential but often overlooked principles for marital leadership. "Adam Levin is one of our wildest writers and our funniest, and Bubblegum is a dazzling accomplishment of wit and inventiveness." -George Saunders "Levin's brains may have earned him a cult...but here he swells to a democratic reach. Give him a try sometime. His gate's wide open." -Garth Risk Hallberg, The New York Times Book Review The astonishing new novel by the NYPL Young Lions Fiction Award-winning author of The Instructions. Bubblegum is set in an alternate present-day world in which the Internet does not exist, and has never existed. Rather, a wholly different species of interactive technology--a "flesh-and-bone robot" called the Curio--has dominated both the market and the cultural imagination since the late 1980s. Belt Magnet, who as a boy in greater Chicago became one of the lucky first adopters of a Curio, is now writing his memoir, and through it we follow a singular man out of sync with the harsh realities of a world he feels alien to, but must find a way to live in. At age thirty-eight, still living at home with his widowed father, Belt insulates himself from the awful and terrifying world outside by spending most of his time with books, his beloved Curio, and the voices in his head, which he isn't entirely sure are in his head. After Belt's father goes on a fishing excursion, a simple trip to the bank escalates into an epic saga that eventually forces Belt to confront the world he fears, as well as his estranged childhood friend Jonboat, the celebrity astronaut and billionaire. In Bubblegum, Adam Levin has crafted a profoundly hilarious, resonant, and monumental narrative about heartbreak, longing, art, and the search for belonging in an incompatible world. Bubblegum is a rare masterwork of provocative social (and self-) awareness and intimate emotional power. "Since Andrew Hudgins was a child, he was a compulsive joke teller, so when he sat down to write about jokes, he found that he was writing about himself--what jokes taught him and mistaught him, how they often delighted him but occasionally made him nervous with their delight in chaos and sometimes anger. Because Hudgins's father, a West Point graduate, served in the US Air Force, his family moved frequently; he learned to relate to other kids by telling jokes and watching how his classmates responded. And jokes opened him up to the serious, taboo subjects that his family didn't talk about openly--religion, race, sex, and death. Hudgins tells and analyzes the jokes that explore the contradictions in the Baptist religion he was brought up in, the jokes that told him what his parents would not tell him about sex, and the racist jokes that his uncle loved, his father hated, and his mother, caught in the middle, was ambivalent about. This book is both a memoir and a meditation on jokes and how they educated,delighted, and occasionally horrified him as he grew"-- An essential how-to on

Praise for The Plot Is Murder "Readers of Carolyn Hart and Vicki Delany will appreciate the lively seniors, the humor, and the bookstore environment."—Library Journal This is the story of an aspiring actress. Mildred Elizabeth Gillars, who found herself in wartime Germany, where she worked for Radio Berlin, the propagandizing arm of the Nazi Regime. Known as Axis Sally, her radio show attempted to lower both civilian and military morale through the dissemination of propaganda. After the war, she was arrested in Berlin by American authorities and later tried for treason in the United States. Though she was convicted of treason and sentenced to prison against a backdrop of national anger and derision, many questions lingered as to the fairness of her trial, including the role of the press, the federal government, and the witnesses who testified against her. This is the story behind the story. "I'm on my way back. I was one of the

first they took away." So begins Robert Kelly's remarkable science fiction novel about a literally divided self. "I" is Billy, the book's protagonist, a boy who is captured by a group of aliens who take him to a cave and meticulously, if seemingly by caprice, remove his "young pure smokeless lungs" and other internal organs to replace them with two gray squirrels, a live hawk, a shoe, and a variety of other bizarre objects. Billy's body and mind are spun off into a curious twin, one whose adventures Billy is forced by his captors to watch and try to make sense of—not a simple task when he sees his doppelgänger stealing everything from him: body, name, family, his beloved Eileen. Complicating matters, and forcing Billy deeper into his ironic journey of self, is a mysterious pamphlet called "The Book from the Sky," written by what may be yet another variation of Billy himself, Brother William. This stunningly imaginative work, echoing the late novels of Iris Murdoch and the fantasies of Robert Charles Wilson and Jonathan Stroud while remaining inimitably Kelly's own, offers adventurous readers a "cabinet of wonders" not unlike the body of his beleaguered young hero.

Blighted is a powerful narrative about the decades-long decay and remarkable two-year reinvention of Summerdale, an aging apartment community located in one of Atlanta's grittiest corridors. From burnt-out, mold-infested buildings to traumatized classrooms, Blighted unfolds in the voices of ruthless drug dealers, phantom tenants, fearless landlords, the working poor, educators, and visionary local leaders. After purchasing the property from an absentee overseas owner, Marjy Stagmeier and her partners methodically tackled the crisis festering inside the gated 244-unit apartment property. Two years of relentless work later, Stagmeier reveals how the team that she led built community from chaos. Through on-the-ground, in-the-moment interviews with a wide range of stakeholders, Stagmeier demonstrates how marginalized housing perpetuates intergenerational poverty and the collapse of nearby public schools while showing the multifaceted challenges of improving dire living conditions. Blighted offers a unique insider perspective of the political, human, and economic challenges of delivering equitable housing in a market fueled by inflationary prices, insatiable demand, and competing and often dubious agendas. Summerdale's success is a bright model of how affordable housing, education, healthcare, and social capital can interconnect to build vibrant, sustainable communities—affordable housing communities, nearby schools, and the community at large. From there, kids, families, working people, and neighborhoods can thrive.
