Le docteur Alex McAuliff est donc engagé pour diriger une prospection géologique en Jamaïque. Mais il ne tarde pas à apprendre que tous les membres de la précédente équipe sont morts assassinés. La sécurité de sa propre équipe semble menacée par l'existence d'une mystérieuse société secrète aux ramifications internationales et aux pouvoirs illimités, dont on ignore tout sauf le nom : l'Halidon. Dans la jungle caraïbe, McAuliff oublie bien vite son bagage universitaire pour sauver sa peau ; d'autant qu'il n'est pas le seul à chercher la vérité et que les intérêts en jeu le dépassent.

*Robert Ludlum* May 27 2022 In a study that examines in depth seventeen of Ludlum's novels, including the latest, *The Apocalypse Watch* (1995), Macdonald uncovers the serious themes running through the novels: the role of the individual in preserving democracy, the value of competing voices, the failure of educational institutions to preserve ideals, the temptations of power, the importance of personal loyalties in the face of impersonal organizations, and the nature of evil. She shows how Ludlum's novels are valuable in helping us to understand modern paranoia - our fear of conspiracies, terrorism, barbarism, and intolerance.

**Three Great Novels** Mar 25 2022 TREVAYNE - He was untouchable . . . or so he hoped. Andrew Trevayne was a millionaire by the time he was thirty. He went into government, carving out a brilliant career. Then, at a call from the president, he initiates a probe into the clandestine world of secret government. It's a nightmare maze where money men and mafia leaders mix, a world where even the Presidency can be bought and sold. And where a man like Trevayne could be a dreaded enemy, a duped victim, or maybe, just maybe, a king. THE CRY OF THE HALIDON - Alex McAuliff has received an offer he can't refuse - but if he accepts, it could be the last thing he does. He's been given two million dollars for a geological survey of Jamaica's dark interior. But British Intelligence contact Alex to let him in on a secret: the last survey team despatched to Jamaica vanished without trace. From the moment he lands in Jamaica he is a marked man. But who wants him dead? In an island paradise where even a beautiful woman could be a spy, Alex's only clue to survival is a single, mysterious word: Halidon... THE RHINEMANN EXCHANGE - Expert, deadly and ruthlessly efficient, David Spaulding is the most feared and resourceful Allied agent in wartime Europe. He is also high on the Gestapo's 'most wanted' list. Now Spaulding has been selected by Allied Command to handle an undercover deal involving Nazi scientific plans. The dealer is Erich Rhinemann, an exiled German Jew awaiting the end of the war in an impenetrable retreat near Buenos Aires. But there's something Spaulding doesn't know. The other side of the deal. And it involves the most bizarre, horrific intrigue of the Second World War.

**When** Apr 13 2021 An elegant and counterintuitive guide to achieving perfect timing Timing is everything. Whether we are making strategic business decisions or the smallest personal choice, we must decide not only what to do, but when to do it. Act too early—or too late—and the results can be disastrous. Based on a 20-year investigation into more than 2,000 timing issues and errors, *When* presents a single and practical approach for dealing with timing in life and business. Good timing, Albert argues, is not just a matter of luck, intuition, or past experience—all of which may be unreliable—but a skill. He describes that skill and details the tools and methods needed to conduct a successful timing analysis. The book is the first to offer an efficient and comprehensive way to think through any timing issue Filled with dozens of lively stories illustrating good and bad timing in all walks of life—business, warfare, medicine, sports, entertainment and the arts Written by Stuart Albert, one of the foremost timing experts in the world and developer of the first practical, research-based method for turning the skill of timing into a competitive advantage Engaging and counterintuitive, *When* will show everyone, regardless of the work they do, or the life they live, that "it's all in the timing."
