Understanding Medical Terms Dec 26 2019

PREFACE TO THE SECOND EDITION The need for a thorough understanding of medical terminology has not diminished in the least for pharmacists and other health care practitioners in the five years between the publication of the first edition of this book and this second edition. If anything, it has become greater. The pharmacy profession has further solidified its clinical role in patient care, and pharmacists are more entrenched than ever before in the role of counselor and advisor to both patients and practitioners alike. For more than a few pharmacists, what not long ago was an occasional question from a physician about appropriate drug therapy has become regular consultation concerning the interaction of drugs with the patient, his life, and the many other therapies he may be facing. Pharmacy chains, which not long ago installed glass walls to separate the pharmacist from customers, have asked technicians to count pills while pharmacists are in continuous contact with the patient. Such practice changes have increased the demand for clinical knowledge among pharmacists, including a knowledge of medical terminology, and those demands have been passed on to the authors in preparation of the second edition of this book. While the role of the text is still to help pharmacists be more effective interpreters and counselors, some changes have been made in response to reader requests.

Old Stories Retold Jul 01 2020 Old Stories Retold delves into intertextual resonances cultivated with traditional literature in modern Chinese fiction from both the mainland and Taiwan. These resonances develop alternative historical sensibilities which reveal the effects of modernization on Chinese culture.

Progress in Location-Based Services Aug 14 2021 The book consists of peer-reviewed papers from the 9th symposium on Location Based

Services (LBS) which is targeted to researchers, industry/market operators and students of different backgrounds (scientific, engineering and humanistic). As the research field is developing and changing fast, this book follows up on current trends and gives suggestions and guidance to further research. This book offers a common ground bringing together various disciplines and practice, knowledge, experiences, plans and ideas on how LBS can and could be improved and on how it will influence both science and society. The book comprises front-end publications organized into sections on: spatial-temporal data acquisition, processing & analysis; positioning / indoor positioning; way-finding / navigation (indoor / outdoor) & smart mobile phone navigation; interactions, user studies and evaluations; innovative LBS systems & applications.

How People Negotiate Sep 02 2020 "How People Negotiate brings together a set of negotiation stories, and presents this collection with an integrative overview. This volume provides tracers, and theoretical elaboration and includes a comprehensive overview of research on negotiation. It is relevant to students, researchers and professionals working in the field of negotiation, conflict resolution, problem solving, joint decision making and cultural strategies."--BOOK JACKET.

Ice Emperor's Back to School [Next Book] Sep 14 2021 The family's scum, the city's shame, the typical waste material. Whether it is the pride of outstanding achievements, or muddling through the fop, all look down on him, he is the complete and utter waste. A strange encounter, created the emperor of the cold, play around the city. The world gave me the cold, let me use the ice cold to send back

The Nature of Environmental Stewardship May

11 2021 Environmental issues appear deceptively simple: science tells us what the problems are and how to solve them, and, for Christians, the Bible motivates us to care for creation. And yet, both in society in general as well as in the Christian church in particular, we cannot seem to agree on what to do regarding environmental issues. In *The Nature of Environmental Stewardship*, climate scientist Johnny Wei-Bing Lin argues that determining the content of environmental stewardship, far from being a straightforward exercise, is a difficult and complex endeavour. He sets forth a general taxonomy, drawing from worldviews, ethical theories, science epistemology, science policy studies, politics, and economics, that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues. *Handbook of Mobile Systems Applications and Services* Nov 16 2021 From fundamental concepts and theories to implementation protocols and cutting-edge applications, the *Handbook of Mobile Systems Applications and Services* supplies a complete examination of the evolution of mobile services technologies. It examines service-oriented architecture (SOA) and explains why SOA and service oriented computing (SOC) will pl

Professional SharePoint 2010 Cloud-Based Solutions May 03 2023 An authoritative guide to extending SharePoint's power with cloud-based services If you want to be part of the next major shift in the IT industry, you'll want this book. Melding two of the hottest trends in the industry—the widespread popularity of the SharePoint collaboration platform and the rapid rise of cloud computing—this practical guide shows developers how to extend their SharePoint solutions with the cloud's almost limitless capabilities. See how to get started, discover smart ways to leverage cloud data and services through Azure, start incorporating Twitter or LinkedIn into your solutions, find the best ways to secure everything, and much more. Shows developers how to use Microsoft SharePoint 2010 to create scalable, cloud-based solutions Melds the hottest new trend in the industry—developing, hosting, managing, or storing code in the cloud—with what SharePoint developers need to know to weave these

technologies into their solutions Provides developer patterns, real-world examples, and invaluable walkthroughs Topics include SQL Azure for data management and BI, building an Azure-based corporate tax service, connecting Linked In and SharePoint profile data, creating a filterable Twitter dashboard, leveraging Bing Maps Geo services, maintaining security, and more SharePoint developers, discover exciting new ways to extend SharePoint's functionality with this practical and content-rich guide. CPA Examination Review, Problems and Solutions May 23 2022 Artificial Intelligence for .NET: Speech, Language, and Search Dec 18 2021 Get introduced to the world of artificial intelligence with this accessible and practical guide. Build applications that make intelligent use of language and user interaction to better compete in today's marketplace. Discover how your application can deeply understand and interpret content on the web or a user's machine, intelligently react to direct user interaction through speech or text, or make smart recommendations on products or services that are tailored to each individual user. With Microsoft Cognitive Services, you can do all this and more utilizing a set of easy-to-use APIs that can be consumed on the desktop, web, or mobile devices. Developers normally think of AI implementation as a tough task involving writing complex algorithms. This book aims to remove the anxiety by creating a cognitive application with a few lines of code. There is a wide range of Cognitive Services APIs available. This book focuses on some of the most useful and powerful ways that your application can make intelligent use of language. *Artificial Intelligence for .NET: Speech, Language, and Search* will show you how you can start building amazing capabilities into your applications today. What You'll Learn Understand the underpinnings of artificial intelligence through practical examples and scenarios Get started building an AI-based application in Visual Studio Build a text-based conversational interface for direct user interaction Use the Cognitive Services Speech API to recognize and interpret speech Look at different models of language, including natural language processing, and how to apply them in your Visual Studio application Reuse Bing search

capabilities to better understand a user's intention Work with recommendation engines and integrate them into your apps Who This Book Is For Developers working on a range of platforms, from .NET and Windows to mobile devices. Examples are given in C#. No prior experience with AI techniques or theory is required.

Windows Azure Programming Patterns for Start-ups Mar 21 2022 This book follows a step-by-step approach with clear transparent instructions, screenshots and code samples. This book is intended for Microsoft .NET developers who want to leverage the power of cloud and build a brand new service from scratch; it assumes a basic understanding of the .NET framework and C#.

Report on the Fixation and Utilization of Nitrogen Jul 13 2021

Advances in Data and Information Sciences Apr 09 2021 This book gathers a collection of high-quality peer-reviewed research papers presented at the 3rd International Conference on Data and Information Sciences (ICDIS 2021), held at Raja Balwant Singh Engineering Technical Campus, Agra, India, on May 14 - 15, 2021. In chapters written by leading researchers, developers, and practitioner from academia and industry, it covers virtually all aspects of computational sciences and information security, including central topics like artificial intelligence, cloud computing, and big data. Highlighting the latest developments and technical solutions, it will show readers from the computer industry how to capitalize on key advances in next-generation computer and communication technology.

First International Conference on Artificial Intelligence and Cognitive Computing Feb 05 2021 This book presents original research works by researchers, engineers and practitioners in the field of artificial intelligence and cognitive computing. The book is divided into two parts, the first of which focuses on artificial intelligence (AI), knowledge representation, planning, learning, scheduling, perception-reactive AI systems, evolutionary computing and other topics related to intelligent systems and computational intelligence. In turn, the second part focuses on cognitive computing, cognitive science and cognitive informatics. It also discusses applications of cognitive computing in

medical informatics, structural health monitoring, computational intelligence, intelligent control systems, bio-informatics, smart manufacturing, smart grids, image/video processing, video analytics, medical image and signal processing, and knowledge engineering, as well as related applications.

Information Technology and Lawyers Mar 28 2020 The gap between information technology and the legal profession is narrowing, in particular due to the Internet and the richness of legal sources that can be found online. This book further bridges the gap by showing people with a legal background what is possible with Information Technology now and in the near future, as well as by showing people with an IT background what opportunities exist in the domain of law.

Next-Generation Video Coding and Streaming Mar 09 2021 Reviews the new High Efficiency Video Coding (HEVC) standard and advancements in adaptive streaming technologies for use in broadband networks and the Internet This book describes next-generation video coding and streaming technologies with a comparative assessment of the strengths and weaknesses. Specific emphasis is placed on the H.265/HEVC video coding standard and adaptive bit rate video streaming. In addition to evaluating the impact of different types of video content and powerful feature sets on HEVC coding efficiency, the text provides an in-depth study on the practical performance of popular adaptive streaming platforms and useful tips for streaming optimization. Readers will learn of new over-the-top (OTT) online TV advancements, the direction of the broadband telecommunications industry, and the latest developments that will help keep implementation costs down and maximize return on infrastructure investment. Reviews the emerging High Efficiency Video Coding (HEVC) standard and compares its coding performance with the MPEG-4 Advanced Video Coding (AVC) and MPEG-2 standards Provides invaluable insights into the intra and inter coding efficiencies of HEVC, such as the impact of hierarchical block partitioning and new prediction modes Evaluates the performance of the Apple and Microsoft adaptive streaming platforms and presents innovative techniques

related to aggregate stream bandwidth prediction, duplicate chunk Includes end-of-chapter homework problems and access to instructor slides Next-Generation Video Coding and Streaming is written for students, researchers, and industry professionals working in the field of video communications. Benny Bing has worked in academia for over 20 years. He has published over 80 research papers and 12 books, and has 6 video patents licensed to industry. He has served as a technical editor for several IEEE journals and an IEEE Communications Society Distinguished lecturer. He also received the National Association of Broadcasters (NAB) Technology Innovation Award for demonstrations of advanced media technologies.

Privacy Enhancing Technologies Jan 07 2021

This book constitutes the refereed proceedings of the 10th International Symposium, PETS 2010, held in Berlin, Germany in July 2010. The 16 revised full papers were carefully reviewed and selected from 57 submissions for inclusion in the book. The papers handle topics such as access control, privacy of web based search, anonymous webs of trust, security attacks, active timing attacks in low-latency anonymous communication, network topology and web search with malicious adversaries

Beginning Windows Phone 7 Development Apr 21 2022

Microsoft is injecting new energy into the smart phone marketplace with the sophisticated Windows Phone 7. This new energy equates to new opportunities for you, the mobile developer. *Beginning Windows Phone 7 Development* has been written specifically to help you seize these opportunities and begin creating applications for this exciting new mobile device platform. *Beginning Windows Phone 7 Development* starts with the basics, walking you through the process of downloading and setting up the right development tools, including Visual Studio, Expression Blend, Silverlight SDK, and Windows Phone SDK. The book then takes you step-by-step through the development process as you build and deploy a complete application with a highly sophisticated user interface. Finally, you'll receive step-by-step instructions on selling your applications through the Microsoft Phone Marketplace.

Complications of Ophthalmic Drugs and

Solutions May 30 2020

Intelligent Tools for Building a Scientific Information Platform Oct 16 2021 This book is a selection of results obtained within two years of research performed under SYNAT - a nationwide scientific project aiming at creating an infrastructure for scientific content storage and sharing for academia, education and open knowledge society in Poland. The selection refers to the research in artificial intelligence, knowledge discovery and data mining, information retrieval and natural language processing, addressing the problems of implementing intelligent tools for building a scientific information platform. This book is a continuation and extension of the ideas presented in "Intelligent Tools for Building a Scientific Information Platform" published as volume 390 in the same series in 2012. It is based on the SYNAT 2012 Workshop held in Warsaw. The papers included in this volume present an overview and insight into information retrieval, repository systems, text processing, ontology-based systems, text mining, multimedia data processing and advanced software engineering.

Machine-to-Machine Marketing (M3) via Anonymous Advertising Apps Anywhere Anytime (A5) Dec 30 2022

In today's wireless environment, marketing is more frequently occurring at the server-to-device level-with that device being anything from a laptop or phone to a TV or car. In this real-time digital marketplace, human attributes such as income, marital status, and age are not the most reliable attributes for modeling consumer behaviors. A more effective

Windows Phone 8 Development Internals Mar 01 2023

Build and optimize Windows Phone 8 apps for performance and security Drill into Windows Phone 8 design and architecture, and learn best practices for building phone apps for consumers and the enterprise. Written by two senior members of the core Windows Phone Developer Platform team, this hands-on book gets you up to speed on the Windows 8 core features and application model, and shows you how to build apps with managed code in C# and native code in C++. You'll also learn how to incorporate Windows Phone 8 features such as speech, the Wallet, and in-app purchase. Discover how to: Create UIs with unique layouts, controls, and

gesture support Manage databinding with the Model View ViewModel pattern Build apps that target Windows Phone 8 and Windows Phone 7 Use built-in sensors, including the accelerometer and camera Consume web services and connect to social media apps Share code across Windows Phone 8 and Windows 8 apps Build and deploy company hub apps for the enterprise Start developing games using Direct3D Test your app and submit it to the Windows Phone Store

Listen to the Sea Jul 25 2022 After starting a business failure, inadvertently came into contact with a windfall industry. I started from the bottom, step by step to the peak of life. This is an inspiring story.

Inside Windows 10 Oct 04 2020 In this eBook, Onuora Amobi, former Microsoft MVP for Windows and the editor of www.windows10update.com introduces the reader to Microsoft's newest ecosystem - Windows 10. The author meticulously starts at the beginning and guides you through the evolution of Windows from Windows 7, Microsoft's culture and what it has taken to get Microsoft to this point. Some of what you'll learn: The evolution of Microsoft - Why Windows 10 was necessary. The new CEO - Satya Nadella's philosophy and how it's driving this change Windows 9 - what happened? How come Microsoft skipped this number? Windows 10 - not just a desktop upgrade - a complete ecosystem. Why this is important to know. Just how many versions of Windows 10 are there? Universal Applications are coming - how this will make your life easier. How developing for Windows products is about to get a lot easier. Cortana - Microsoft's new virtual assistant and how it could change computing. Project Spartan - How Microsoft is attempting to make browsing the web easier. Microsoft's role in the "Internet of Things" What happened to Windows RT? and much much more... Windows 10 is Microsoft's most ambitious undertaking and you will learn exactly how this new Operating System may change the face of computing forever.

Professional Business Connectivity Services in SharePoint 2010 Jan 19 2022 A guide to BCS discusses its relationship to other components of SharePoint, its role in the business environment, how to create custom solutions using server-side and client-side object

models, and its security solutions.

Mastering Microsoft Windows 7 Administration Feb 17 2022 A comprehensive guide for IT administrators deploying Windows 7 Using a task-focused approach and clear, no-nonsense instructions, this book delivers all the information you'll need to deploy and manage Windows 7 efficiently and securely. Learn how to install, configure, run, and troubleshoot Windows 7; explore advanced networking, security, and other advanced topics. Delivers the information IT administrators need to deploy and manage Windows 7 successfully Explains topics in the thorough, step-by-step style of all books in the Mastering series, providing you ample instruction, tips, and techniques Covers how to install, configure, run, and troubleshoot Windows 7 and also explores advanced networking, security, and more Uses a task-based approach, so you have plenty of real-world examples and exercises to help you understand concepts All the books in the Sybex Mastering series feature comprehensive and expert coverage of topics you can put to immediate use. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

LIFE Nov 04 2020 LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today's people and events. They have free access to share, print and post images for personal use.

Windows 10 Development Recipes Oct 28 2022 This book is a practical guide to solving the everyday problems encountered when building apps for Windows 10 devices, including desktops, laptops, tablets, and phones, using HTML5, CSS3 and JavaScript. Each recipe includes a concise statement of the problem and the approach you should take in order to solve it. A full code solution is also given, along with an in-depth explanation, so you can build on your development knowledge while you work on your application. The majority of recipes can be used with the Universal Windows app template, designed to help you build one consistent user experience across devices. These are supplemented with recipes for adapting your app to different devices, screen sizes and sensor

availability. You'll also find out how to deploy and publish your apps in the Windows Store. Learn how to: Make use of the latest Universal Windows app features, alongside customizations for specific platforms and screen sizes. Bring your apps to life with live tiles, notifications, and sharing. Prepare your app to adapt to your users' different cultural and business environments using globalization and localization APIs and best practices. Understand the certification process and publish your app to the Windows Store, with the option to pay once, install anywhere. This book is suitable for anyone developing for Windows and Windows Mobile. Readers should be comfortable working with HTML and JavaScript. No previous experience with Microsoft technologies or languages is needed in order to use this book.

Web Information Systems Engineering - WISE 2020 Aug 02 2020 This book constitutes the proceedings of the 21st International Conference on Web Information Systems Engineering, WISE 2020, held in Amsterdam, The Netherlands, in October 2020. The 81 full papers presented were carefully reviewed and selected from 190 submissions. The papers are organized in the following topical sections: Part I: network embedding; graph neural network; social network; graph query; knowledge graph and entity linkage; spatial temporal data analysis; and service computing and cloud computing Part II: information extraction; text mining; security and privacy; recommender system; database system and workflow; and data mining and applications

Mobile Platforms and Development

Environments Aug 26 2022 Mobile platform development has lately become a technological war zone with extremely dynamic and fluid movement, especially in the smart phone and tablet market space. This Synthesis lecture is a guide to the latest developments of the key mobile platforms that are shaping the mobile platform industry. The book covers the three currently dominant native platforms -- iOS, Android and Windows Phone -- along with the device-agnostic HTML5 mobile web platform. The lecture also covers location-based services (LBS) which can be considered as a platform in its own right. The lecture utilizes a sample application (TwitterSearch) that the authors

show programmed on each of the platforms. Audiences who may benefit from this lecture include: (1) undergraduate and graduate students taking mobile computing classes or self-learning the mobile platform programmability road map; (2) academic and industrial researchers working on mobile computing R&D projects; (3) mobile app developers for a specific platform who may be curious about other platforms; (4) system integrator consultants and firms concerned with mobilizing businesses and enterprise apps; and (5) industries including health care, logistics, mobile workforce management, mobile commerce and payment systems and mobile search and advertisement. Table of Contents: From the Newton to the iPhone / iOS / Android / Windows Phone / Mobile Web / Platform-in-Platform: Location-Based Services (LBS) / The Future of Mobile Platforms / TwitterSearch Sample Application

Problems And Solutions In Mathematical Olympiad (High School 3) Nov 28 2022 The series is edited by the head coaches of China's IMO National Team. Each volume, catering to different grades, is contributed by the senior coaches of the IMO National Team. The Chinese edition has won the award of Top 50 Most Influential Educational Brands in China. The series is created in line with the mathematics cognition and intellectual development levels of the students in the corresponding grades. All hot mathematics topics of the competition are included in the volumes and are organized into chapters where concepts and methods are gradually introduced to equip the students with necessary knowledge until they can finally reach the competition level. In each chapter, well-designed problems including those collected from real competitions are provided so that the students can apply the skills and strategies they have learned to solve these problems. Detailed solutions are provided selectively. As a feature of the series, we also include some solutions generously offered by the members of Chinese national team and national training team.

Technological Developments in Networking, Education and Automation Sep 26 2022 Technological Developments in Networking, Education and Automation includes a set of rigorously reviewed world-class manuscripts

addressing and detailing state-of-the-art research projects in the following areas:

Computer Networks: Access Technologies, Medium Access Control, Network architectures and Equipment, Optical Networks and Switching, Telecommunication Technology, and Ultra Wideband Communications. Engineering Education and Online Learning: including development of courses and systems for engineering, technical and liberal studies programs; online laboratories; intelligent testing using fuzzy logic; taxonomy of e-courses; and evaluation of online courses. Pedagogy: including benchmarking; group-learning; active learning; teaching of multiple subjects together; ontology; and knowledge management. Instruction Technology: including internet textbooks; virtual reality labs, instructional design, virtual models, pedagogy-oriented markup languages; graphic design possibilities; open source classroom management software; automatic email response systems; tablet-pcs; personalization using web mining technology; intelligent digital chalkboards; virtual room concepts for cooperative scientific work; and network technologies, management, and architecture. Coding and Modulation: Modeling and Simulation, OFDM technology, Space-time Coding, Spread Spectrum and CDMA Systems. Wireless technologies: Bluetooth, Cellular Wireless Networks, Cordless Systems and Wireless Local Loop, HIPERLAN, IEEE 802.11, Mobile Network Layer, Mobile Transport Layer, and Spread Spectrum. Network Security and applications: Authentication Applications, Block Ciphers Design Principles, Block Ciphers Modes of Operation, Electronic Mail Security, Encryption & Message Confidentiality, Firewalls, IP Security, Key Cryptography & Message Authentication, and Web Security. Robotics, Control Systems and Automation: Distributed Control Systems, Automation, Expert Systems, Robotics, Factory Automation, Intelligent Control Systems, Man Machine Interaction, Manufacturing Information System, Motion Control, and Process Automation. Vision Systems: for human action sensing, face recognition, and image processing algorithms for smoothing of high speed motion. Electronics and Power Systems: Actuators, Electro-Mechanical Systems, High Frequency

Converters, Industrial Electronics, Motors and Drives, Power Converters, Power Devices and Components, and Power Electronics.

Carbon-Based Metal-Free Catalysts Feb 26 2020 Offering comprehensive coverage of this hot topic, this two-volume handbook and ready reference treats a wide range of important aspects, from synthesis and catalytic properties of carbon materials to their applications as metal-free catalysts in various important reactions and industrial processes. Following a look at recent advances in the development of carbon materials as carbon-based metal-free catalysts, subsequent sections deal with a mechanistic understanding for the molecular design of efficient carbon-based metal-free catalysts, with a special emphasis on heteroatom-doped carbon nanotubes, graphene, and graphite. Examples of important catalytic processes covered include clean energy conversion and storage, environmental protection, and synthetic chemistry. With contributions from world-leading scientists, this is an indispensable source of information for academic and industrial researchers in catalysis, green chemistry, electrochemistry, materials science, nanotechnology, energy technology, and chemical engineering, as well as graduates and scientists entering the field.

Wiley CPA Examination Review, Problems and Solutions Dec 06 2020 The #1 CPA exam review self-study leader The CPA exam review self-study program more CPA candidates trust to prepare for the CPA exam and pass it, Wiley CPA Exam Review 40th Edition contains more than 4,200 multiple-choice questions and includes complete information on the Task Based Simulations. Published annually, this comprehensive two-volume paperback set provides all the information candidates need in order to pass the Uniform CPA Examination format. Features multiple-choice questions, AICPA Task Based Simulations, and written communication questions, all based on the CBT-e format Covers all requirements and divides the exam into 47 self-contained modules for flexible study Offers nearly three times as many examples as other CPA exam study guides Other titles by Whittington: Wiley CPA Exam Review 2013 With timely and up-to-the-minute coverage, Wiley CPA Exam Review 40th Edition covers all

requirements for the CPA Exam, giving the candidate maximum flexibility in planning their course of study, and success.

Muscle Shoals, Hearings ..., on H.R. 16396, H.R. 16614, Jan 25-Mar 1, 1927 Jun 11 2021

Silverlight Recipes Apr 29 2020 Silverlight Recipes: A Problem-Solution Approach is your practical companion to developing rich, interactive web applications with Microsoft's latest technology. This book tackles common problems and scenarios that on-the-job developers face every day by revealing code and detailed solutions. You'll quickly be able to integrate real-world, functioning code into your applications—and save hours of coding time. The recipes included in Silverlight Recipes: A Problem-Solution Approach have been carefully selected and tested with the professional developer in mind. You'll find problems stated clearly and succinctly, artful solutions explored, and ample discussion of the code and context so you're immediately clear how the solution will support your project. Enjoy practical coverage of Silverlight development in many projects and contexts, including: Designing complete, rich, interactive user experiences Manipulating content and the runtime environment through the Silverlight Plug-in Runtime API Consuming, transforming, and displaying content in your Silverlight web application through XML, LINQ-based data access, and isolated storage Building custom controls for your Silverlight project Integrating rich media, including audio and video, to create a very dynamic user interface and experience Using new Silverlight features, including .NET Framework integration, the use of dynamic languages like Python and Ruby in Silverlight development, and digital rights management support Find instant solutions, comprehensive Silverlight coverage, and time-saving expert advice, all in Silverlight Recipes: A Problem-Solution Approach.

Building Solutions with the Microsoft Power Platform Jan 31 2023 With the accelerating speed of business and the increasing dependence on technology, companies today are significantly changing the way they build in-house business solutions. Many now use low-code and no code technologies to help them deal with specific issues, but that's just the beginning. With this practical guide, power

users and developers will discover ways to resolve everyday challenges by building end-to-end solutions with the Microsoft Power Platform. Author Jason Rivera, who specializes in SharePoint and the Microsoft 365 solution architecture, provides a comprehensive overview of how to use the Power Platform to build end-to-end solutions that address tactical business needs. By learning key components of the platform, including Power Apps, Power Automate, and Power BI, you'll be able to build low-code and no code applications, automate repeatable business processes, and create interactive reports from available data. Learn how the Power Platform apps work together Incorporate AI into the Power Platform without extensive ML or AI knowledge Create end-to-end solutions to solve tactical business needs, including data collection, process automation, and reporting Build AI-based solutions using Power Virtual Agents and AI Builder

Transmigration: Jade Fate Jan 25 2020 Xiao Yuchen, born in a family of carved wood, is responsible for Carving Dragons and Phoenix for the royal family. The status of the central government is quite high, the family is innocent, and generally has no struggle with the world, but the status is still unshakable. The character is changeable and unfathomable. Generally, most of the most peerless works of the Xiao family are written by him. And foam cold ice from childhood childhood, two little guesswork. It can be said that everyone is envious of him. Xiao Yuchen's wood carving skills are incomparable to others. Therefore, the male leader is the target of everyone's pursuit since he was a child. Later, when she went out to visit her parents again, she was hurt by the robbers. In order to save her father and mother, she was stabbed by the robbers, almost nine days later. Although the body is not completely dead, Lin Yanyu's consciousness is almost nil. From then on, he began to be decadent, and no longer focused on wood carving. Lin Yuyan, an outstanding doctor in the 21st century, has passed through the dying body of Mu Hanbing because of Hotan Yu, and has her memory. The daughter of a humble family gradually discovered the strange and strange disposition of Lin Yu and smoke. After a while, he looked heroic and looked like a little bit of a small

family. Just, Xiao Yuchen and Lin Yuyan get along in this period of time. The two men have already sprouted some unknown feelings unconsciously, but no one has broken them. Later, Lin Yuyan escapes from marriage and walks around the world, but is caught back by the man's Lord again. The two gradually rise in love. At this time, Xiao Yuchen accidentally sees a medical skill, and wants to kill Lin Yuyan and revive Mu Hanbing.....
